Overall Quality	A-
Reception	B+
Voice Quality	B+
Battery Life	B-
Ergonomics	A
User Interface	B+

Key Features
Stereo Bluetooth
Music Player
Video Player
USB Data Kit Included
512MB microSD included
Exchange, POP3, IMAP
Ultra Sharp Graphics

Key differentiators from other phones:

1. Top of the line quality - A slider phone that feels solid, smooth and comfortable
2. Unique operating software that delivers super sharp graphics, fast & easy user navigation, vibrant colors and true 3D gaming and internet

Important Additional Benefits:

- Full music and video player built in to offer the best music experience
- Complete music transfer USB cable and software is included so customers can take it home and immediately transfer their music.
- Stereo Bluetooth wireless music capable so customers can listen to your music without wires and hassle

What you should know about this phone:

- Standard Motorola menu that is similar to the RAZR and M900. If you have not used Motorola phones before they are known for their ease of use since they have a “PLAIN ENGLISH” type of menu system and a logical workflow.
- **Use ONLY power and USB cables designed for Motorola with this phone.** HTC phones, which commonly use the same type and size will not power this phone, nor will the Motorola designed power adapters charge an HTC device.

Bluetooth Compatibility:

- Bluetooth for this phone will work with ALL types of bluetooth devices for Stereo, data and internet sharing

Warranty, Returns and Repairs:

- The Motorola MOTOROKR Z6 has a 1 year warranty for manufacturer defects
- Follows the standard repair, OBF and return procedures for Motorola phones

Cellebrite Data Transfer Instructions:

1. Select the proper transfer method (Phone to Phone, Backup or Restore).
2. Select "**Motorola GSM**" as the Source or Target "**Vendor**".
3. Select "**Motorola Z6 ROKR**" as the Source or Target "**Model**".
4. The Cellebrite cable for data transfer is #**80** or you can use the **"Bluetooth"** adapter.
5. Before plugging in the Z6 into the transfer device, you will need to set the USB Setting to allow for "**Modem**" connections. To do this, on the phone press **Main Menu -> Settings -> Connections -> USB Settings -> Modem**. Then press "Continue" on the transfer device.
6. Follow normal transfer protocol to transfer, backup or restore data to or from this phone.

Important Links:

- This Motorola MOTOROKR Z6 comes from the distributor with programming for Internet and Picture Messaging (WAP/MMS). **YOU DO NOT NEED TO PERFORM A MMS/WAP OTA** on this phone for initial sale. However if a phone's programming has been tampered with, it may be necessary to delete the original settings and re-program the phone. Those instructions are listed below.
